## DIGIDIAL®

### MODEL 205

#### DIGITAL TURNS-COUNTING DIAL

Model 205 is a direct-reading digital turns-counting dial which provides accurate readings in full turns, tenths and hundredths. This modern dial adds design distinction to any instrument panel and color coordination to suit your application.

The smartly proportioned face of Model 205 is highlighted by a thin, brushed satin trim around the periphery and separating the numerals and knob. The area surrounding the knob is slightly recessed to facilitate the addition of color appliques. Four color-coordinated appliques with adhesive backing are included with each standard black dial.

Although the numerals are recessed for glare protection, the side-to-side viewing angle is still a wide 90 degrees. The sharp white numerals against the flat black background afford excellent readability at a distance of up to ten feet, and the cylindrical knob of black nylon capped with brushed aluminum permits convenient dial setting. A brushed aluminum locking arm, located on the right, eliminates accidental moving of dial settings.

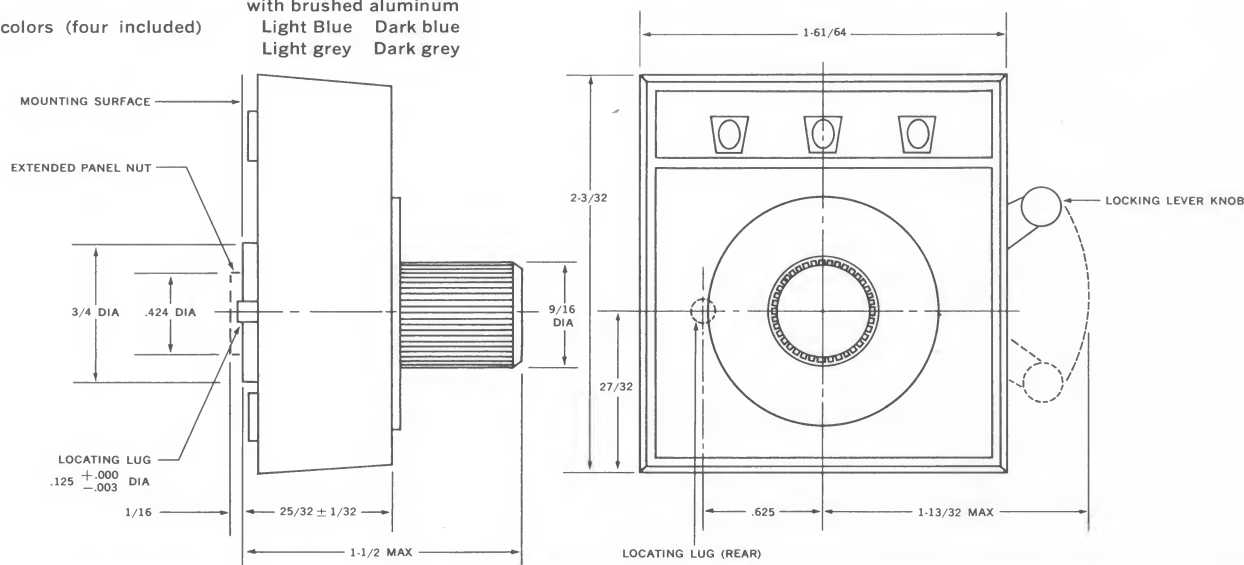

|                                 |                                                    |
|---------------------------------|----------------------------------------------------|
| Dial capacity                   | 10 turns                                           |
| Accepts shaft diameter of       | 0.250 inches                                       |
| Numerical height                | $\frac{5}{32}$ inches                              |
| Numerical stroke                | $\frac{1}{32}$ inches                              |
| Case material                   | die-cast zinc                                      |
| Case finish                     | matte, black enamel                                |
| Case taper                      | 3° back to front                                   |
| Viewing angles                  | side to side 90°<br>up to down 45°                 |
| Knob material                   | serrated, black nylon capped with brushed aluminum |
| Applique colors (four included) | Light Blue    Dark blue<br>Light grey    Dark grey |

#### Award-Winning Design

This dial was honored by the U.S. Department of Commerce "Design USA" Competition as an outstanding example of product design.
